

ABOUT US

Samtone Industries Pvt. Ltd. is one of India's leading manufacturers and exporters of masterbatches, colour concentrates, additive compounds, and printing inks for the plastic processing industry. Incorporated in 2009 and ISO 9001:2008 certified, we operate from state-of-the-art manufacturing facilities in Waghodia, Vadodara, Gujarat. Our portfolio spans UV stabilizer masterbatches, colour masterbatches, additive masterbatches, white masterbatches, mono colour concentrates, and solvent-based printing inks — all developed in-house through rigorous R&D and formulated to match the exact processing requirements of each client. Backed by a team of technocrats and a fully equipped quality lab, we are committed to consistent performance and long-term client relationships.

OUR PRODUCT PORTFOLIO

UV Masterbatches

Specialised UV stabiliser masterbatches for agriculture films, shade nets, mulch films, geotextiles, and outdoor applications. PE & PP base with advanced HALS technology. Custom grades for pesticide-resistant and extended long-life requirements.

Colour Masterbatches

Custom colour concentrates for packaging, textiles, non-wovens, automotive, and household applications. Compatible with major polymers including PE, PP, PET, ABS, PC, and Nylon. Formulated for high colour strength and consistency.

White Masterbatches

High-opacity TiO₂-based white masterbatches (30–75% Rutile grade) with UV stability and weather fastness. Available with USFDA, AP 89, EM 71 & DMF certifications. Suitable for pharma packaging, shed nets, and mulch films.

Additive Masterbatches

Comprehensive range: flame retardant, anti-fog, antistatic, anti-rodent, optical brightener, oxo-biodegradable, purging, BOPP film modifier, silicone, anti-bacterial, slip & anti-block, blowing/foaming, and desiccant masterbatches.

Mono Colour Concentrates

High-pigment pellet concentrates (40–50% organic pigments) for mono/multifilament and film applications. 100% dust-free, low energy dispersion, and minimal cleaning downtime. 90% of total production is exported globally.

Printing Inks

Solvent-based gravure and flexo printing inks for flexible packaging. All resin systems: Vinyl, PU, NC, Polyamide. Product lines include SAMPET LAM, SAMFILM POLY, SAMBOPP EXTRUSION, HR PAPER INKS, and SAMNC STAR INKS.

INDUSTRIES WE SERVE

AGRICULTURE	PACKAGING	TEXTILES	WIRE & CABLES
HEALTHCARE & PHARMA	AUTOMOTIVE	NON-WOVEN	FIBC / PP BAGS
BOPP FILM	BLOW MOULDING	PIPE EXTRUSION	INJECTION MOULDING

WHY SAMTONE

- ✓ **UV Specialisation** — Market-leading expertise in UV stabiliser masterbatches for outdoor, agricultural, and long-life polymer applications. Tailored HALS formulations for PE and PP bases across shade nets, mulch films, greenhouse covers, geotextiles, and irrigation pipes.
- ✓ **ISO 9001:2008 Certified Quality** — Total Quality Management (TQM) followed at every production stage. All batches undergo processability tests across critical performance properties before dispatch.
- ✓ **Advanced In-House R&D** — Fully equipped laboratory with FTIR, TGA, DSC, QUV weatherometer, spectrophotometer, MFI tester, blown film machine, injection moulding machine, twin screw extruder, and more.
- ✓ **Custom Formulation** — Every product is engineered to match the client's specific polymer base, processing conditions, and end-use environment. We do not offer generic off-the-shelf solutions.
- ✓ **Technical Support** — Our technocrat-led team provides hands-on assistance for product selection, dosage optimisation, processing guidance, and performance troubleshooting as part of every client relationship.
- ✓ **Broad Product Range** — One-stop source for masterbatches, additives, and printing inks. Serving 15+ application industries with polymer compatibility across PE, PP, PET, ABS, PC, EVA, PLA, PMMA, and Nylon.

R&D & TESTING EQUIPMENT

Spectrophotometer • Filter Index Tester • MFI Tester (Universal Testing Machine) • Injection Moulding Machine • Blown Film Machine • Twin Screw Extruder • Weatherometer (QUV Test) • FTIR • TGA • DSC • Opacity Tester • Carbon Content Tester • Impact Tester • Muffle Furnace
